

UXO Mitigation and Quality Management Consultancy

Why use the EPI Group?

The EPI Group provide unexploded ordnance (UXO) risk management consulting services for the Renewable, Oil & Gas and Construction & Infrastructure sectors.

Whether your requirements are land or marine based, the EPI Group is uniquely placed to integrate hydrographic, geophysical, environmental and HSSE expertise with UXO mitigation projects.

Construction & Infrastructure:

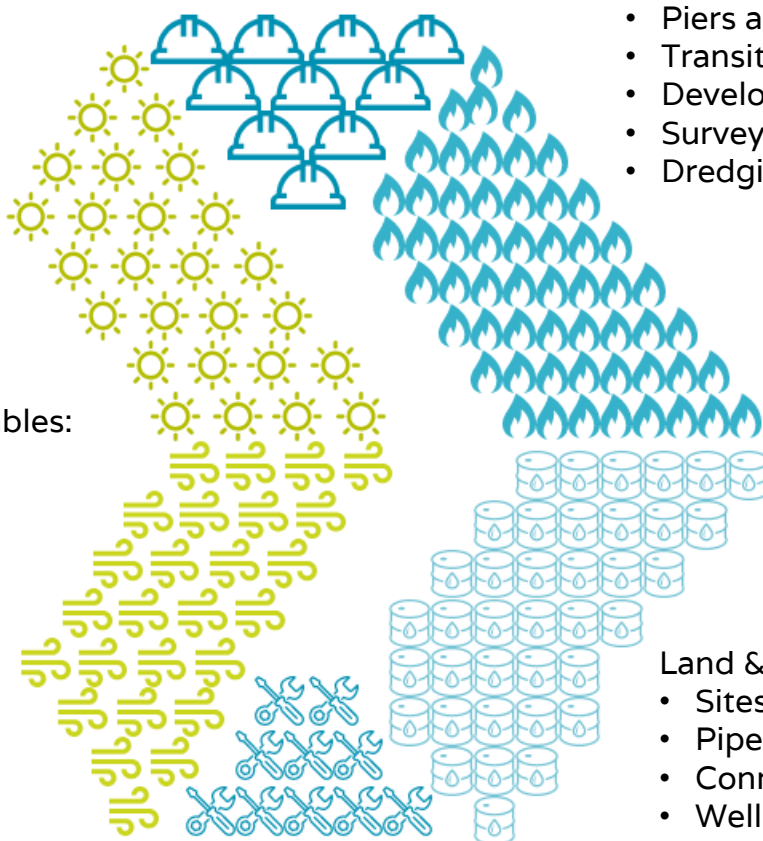

- Ports and Harbours
- Piers and Jetties
- Transition Zones
- Development Sites
- Survey Operations
- Dredging & Mineral Extraction

Land & Marine Renewables:

- Sites & Installations
- Cable Routes
- Interconnectors
- Transition Zones
- Survey Operations

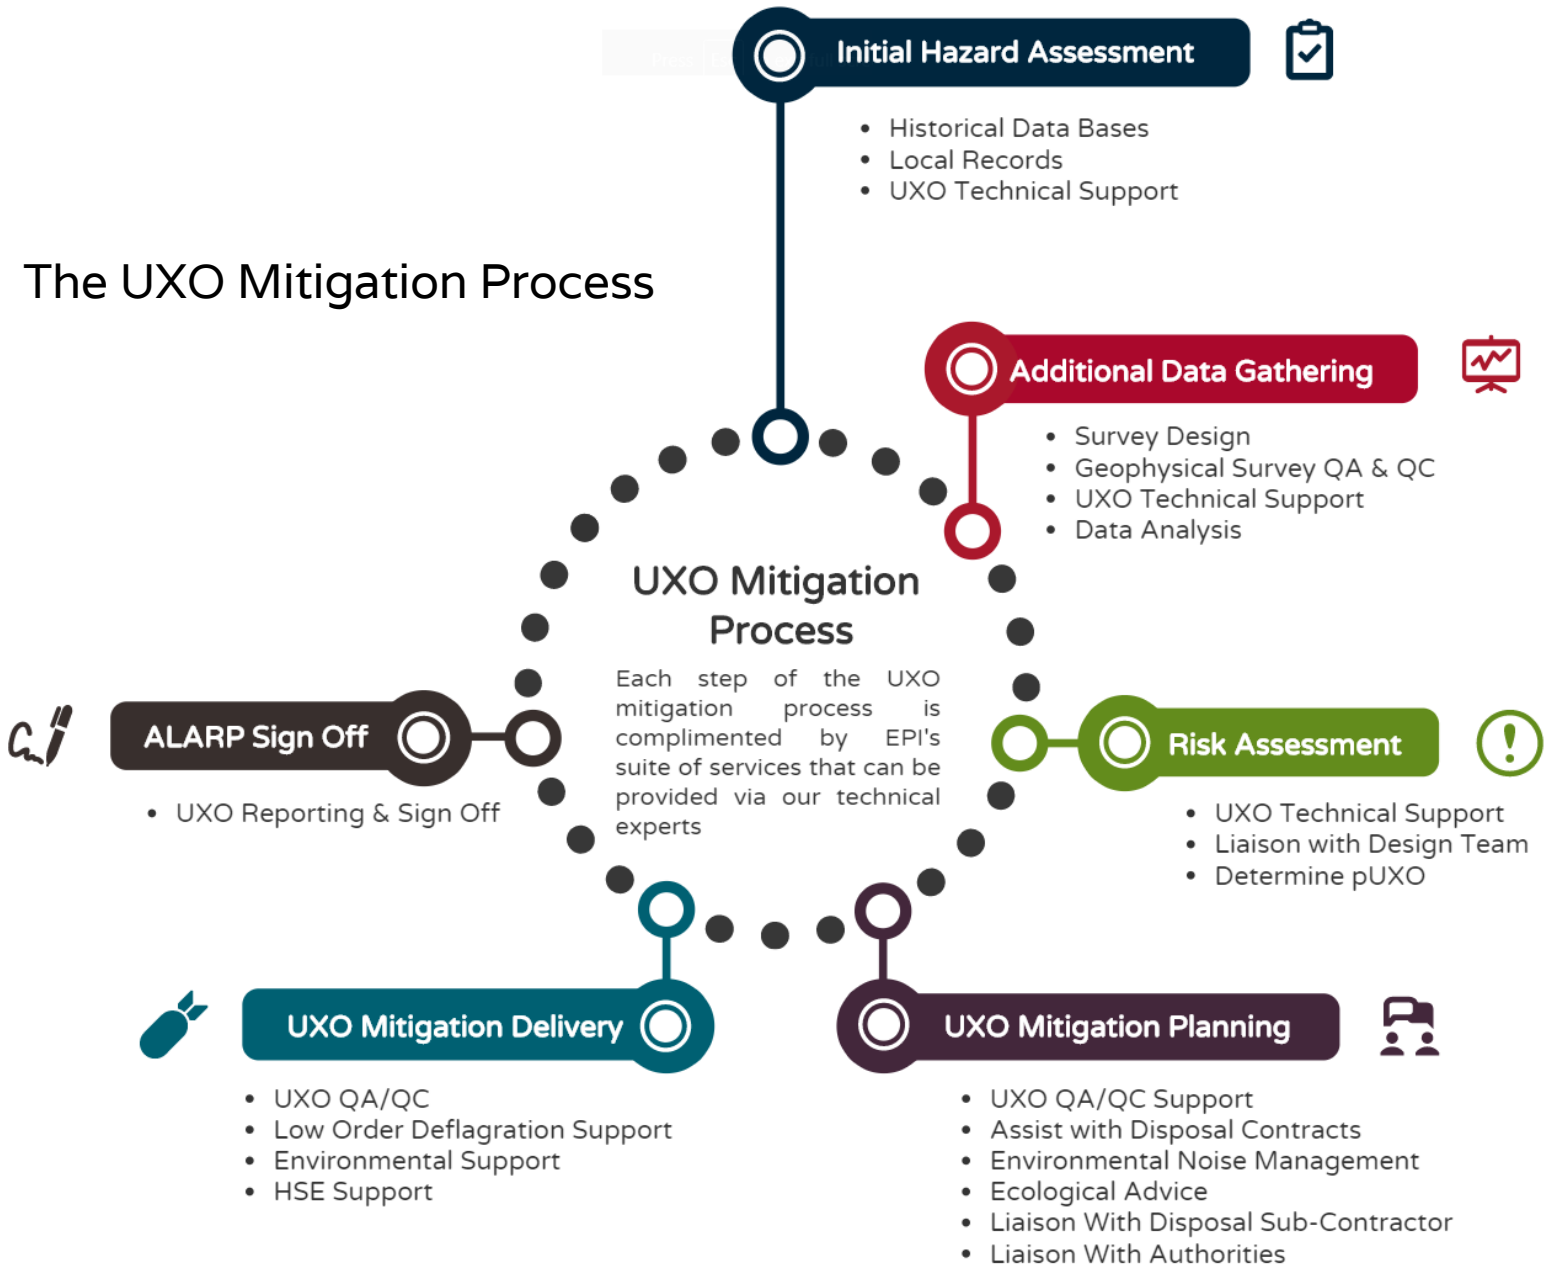

Land & Marine Oil and Gas:

- Sites & Installations
- Pipelines
- Connectors
- Well Heads
- Seismic Operations
- Survey Operations
- Decommissioning

UXO Mitigation and Quality Management Consultancy

The UXO Mitigation Process

The EPI Group don't just offer UXO support and supervision, we are also able to provide a suite of integrated services for the renewable, oil & gas and construction & infrastructure sectors. From ecological advice to environmental support and geophysical quality control, EPI are here to help.
